HEALTH CARE

MEMORANDUM #156

TO: UNC Hospitals Attending Physicians, Housestaff, Nursing Coordinators,
Department Heads and Supervisors

FROM: *J* John Schmitz, PhD, Director, Clinical Immunology Laboratory
W Eric Weimer, PhD, Associate Director, Clinical Immunology Laboratory
P Peter Gilligan, PhD, Director, Clinical Microbiology/Immunology Laboratories
H Herbert C. Whinna, MD, PhD, Director, McLendon Clinical Laboratories

DATE: December 16, 2014

SUBJECT: Acute Viral Hepatitis Panel

Effective December 16, 2014, the Clinical Immunology Laboratory will offer an Acute Viral Hepatitis Panel. The components of this panel include Hepatitis B Surface AG (HBSAG), Hepatitis B Core Antibody, IGM (HBCM), Hepatitis A Antibody, IGM (HAVM) and Hepatitis C Viral antibody (HCV). This panel can be ordered in Epic under the name Hepatitis Panel, Acute (LAB551).

The individual members of this panel can still be ordered, however, all samples received in the laboratory that have these 4 tests ordered individually will have these tests canceled and reordered with the Hepatitis Panel, Acute.

Questions can be directed to the Clinical Immunology Laboratory 984-974-1815 or Dr. Schmitz at 984-974-1452.
