

UNC  
HEALTH CARE

**MEMORANDUM #58**

TO: UNC Hospitals Attending Physicians, Housestaff, Department Heads,  
Nursing staff and Supervisors

FROM: Yara Park, M.D., Director, Blood Banking and Transfusion Medicine *YAP*  
Herbert C. Whinna, M.D., Ph.D., Director, McLendon Clinical Laboratories *HCW*

DATE: May 4, 2011

**SUBJECT: Transfusion Medicine Services' Downtime for Computer System Scheduled  
Upgrade on Tuesday, May 10, 2011**

---

On Tuesday May 10, 2011, the Transfusion Medicine Services' computer system will have a schedule downtime from 11am until 8pm for a system upgrade. During this time, all testing and administrative functions in the TMS will be done manually. All emergency requests and STAT orders will be handled as they normally are, but all other orders might experience a significant delay in turn-around times. No TMS results will be in WebCIS during this time but will be entered once the computer system is restored.

Please direct any questions to Dr. Yara Park, 966-4011, in TMS.
