Director, McLendon Clinical Laboratories

lyd Leslie Dodd, MD
Director, Cytopathology Laboratory

DA Daniel Arguello, BS SCT(ASCP)CM
Anatomic Pathology & Autopsy Services Laboratory Manager
McLendon Clinical Laboratories

Date: December 23, 2024

Subject: Anal Pap ordering using order Pap Test [LAB5]

To streamline Anal Pap ordering at UNCMC, the Cytology - Miscellaneous Exam [LAB5513] order will NO longer be used for ordering Anal Pap tests.

Starting January 1st, 2025, the Pap test order [LAB5] has been modified to allow 'Anal Pap' as a source and the corresponding CAP approved [Protocol for reporting Anal Cytology Specimens](#) will be used.

Questions may be directed to Timothy.Collins@unchealth.unc.edu.
