

Memorandum - Immunology #6

To: UNCHCS Attending Physicians, Housestaff, Clinical Nurse Coordinators, Department Heads, and Supervisors

From:  Eric Weimer, Ph.D.
Director, Molecular Immunology Laboratory

 Herbert C. Whinna, M.D., Ph.D.
Director, McLendon Clinical Laboratories

Date: November 24, 2020

SUBJECT: Activated PI3K Delta Syndrome Genetic Testing

Effective 11/23/2020 the Molecular Immunology Laboratory will offer in house testing for Activated PIK3 Delta Syndrome.

Activated PI3K Delta Syndrome testing will be performed using a non-FDA cleared Illumina TruSight One assay. Testing will cover: PIK3CD, PIK3R1, and PIK3CG.

Testing can be ordered using Activated PI3K Delta Syndrome (LAB7746). Turn-around-time for test results is fourteen days.

For any questions, please contact the Molecular Immunology Laboratory at 984-974-4057.
