**SUBJECT: Trough Tacrolimus Corrected Reports**

DATE: January 15, 2020

---

Corrected reports will be issued for trough tacrolimus results due to omission of reference range and any critical value flags that were reported between Monday, January 13th through Wednesday, January 15th by the Special Chemistry McLendon Clinical Laboratories. Patient trough tacrolimus results were not impacted and will not change. ISD has corrected these reporting issues in EPIC/Beaker.

If you have any questions, please contact the Special Chemistry Laboratory at 984-974-1415 or Dr. Korpi-Steiner at 984-974-1498.
