

MEMORANDUM # 81

TO: UNCHCS Attending Physicians, Housestaff, Nursing Coordinators, Department Heads and Supervisors

FROM: *JCF* J. Charles Jennette, MD, Brinkhous Distinguished Professor and Chair of Pathology and Laboratory Medicine

CB Connie Bishop, Director, McLendon Clinical Laboratories

HCU Herbert C. Whinna, MD, PhD, Medical Director, McLendon Clinical Laboratories

DATE: March 24, 2017

SUBJECT: Change in Directorships in William McLendon Clinical Laboratories

Nichole Korpi-Steiner, PhD has been serving since 1-July-2016 as Interim Director of the Core Laboratory and we thank her greatly for her double duty service. To allow Dr. Korpi-Steiner adequate time to pursue professional interests, Dr. Whinna will be assuming the role as Interim Director of the Core Laboratory and will be covering the overall medical direction of the Core Laboratory as well as the technical oversight for testing in Automated Chemistry, Coagulation and Blood Gas sections. This change is effective immediately.

Going forward, Dr. Korpi-Steiner will be the Director of the Special Chemistry Laboratory and continue as Director of Point-of-Care testing. She will also be an Associate Director of the Core Laboratory, responsible for the technical oversight of Maternal Serum Screen testing.

The other Associate Core Laboratory Directors: Drs. Stephanie Mathews and Monte Willis will continue with their current areas of technical oversight in Hematology/Urinalysis and Sweat Chloride testing respectively.

We would again like to thank Dr. Korpi-Steiner for her service over the past 9 months.
